DIARY NOTES

25X1A

DD/S [REDACTED]

13 June 1957

25X1A

25X1A

1. Talked to [REDACTED] about the possibility of [REDACTED] taking a third year away from the Agency to pursue her studies at Harvard University. Later in the day Lucille came to see me in this connection at which time I told her that I felt three years away from the Agency was too long and that it was in her best interests, as well as the Agency's, for her to return to duty. I added that I thought any possibility of the Agency subsidizing her third year at Harvard was extremely remote. She said that she definitely wanted to continue her career with CIA and would prefer to return at the end of her second year which will be up in September. However, inasmuch as she is so close to obtaining a Ph.D. in public administration she wondered if I would consider allowing her to remain away until 1 January at which time she would complete all of the necessary courses and could probably obtain the degree later by working on her own. I told her that I didn't think there was too much difference between returning to duty in September or on the 1st of January and that if she chose to do this I would offer no objection. I asked her to write me a letter when she had made up her mind as to what she wanted to do.

25X1A

2. The Director signed off on [REDACTED] and I notified Jim Garrison in order that his people might proceed without delay to obligate the funds from Fiscal Year 1957 money.

25X1A

3. Matt Baird said that Kirk had advised him that the Killian Committee wanted to use [REDACTED] sometime this summer as a meeting place for some high-level scientists.

25X1A

4. I asked Jim Garrison to arrange to have a car and chauffeur assigned to Gen- [REDACTED] on the same basis that they are assigned to Bob Amory and me.

25X1A

5. At [REDACTED] request extended the deadline on his comments in connection with the Regulation having to do with "dependent medical care" until the 25th.

25X1A

25X1A

6. Asked Jim Garrison to have [REDACTED] see me about the space in the North Building which was vacated by the Office of Personnel. The Medical Staff---due to its expansion in connection with the "dependents medical care program"---, the Regulations Control Staff, the Biographic Register in the DD/I area, and [REDACTED] are all in competition for this space and we will have to decide which has the highest priority.

SECRET

25X1A 7. Asked [REDACTED] to make a Memorandum for the Record which would summarize the exercise we have just been through in connection with "manpower controls" in response to the Davis Committee's request. Also asked him to put Regulation No. [REDACTED] "Organization & Functions", including the changes which may be necessary by reason of [REDACTED] appointment, in final form and send it to me.

8. Kirk buzzed to ask to whose budget the cost of the Ten Year Certificates to be awarded in connection with our Tenth Anniversary celebration would be charged. I told him that we would take care of it in some way and not to worry about whose budget it would come from.

9. Talked to Larry Houston about the interest of the National Capital Planning Commission in reviewing the plans for our new building. It is his opinion that legally we are not required to go back to the Commission at this time. He says "we have gone into what might be called successive stages since the original plan was approved by the Commission and there is nothing in any of these successive stages which affects the plan and development of the National Capital; therefore, there seems no reason for any submission to the National Capital Planning Commission." We agreed that we would drag our feet on this as much as possible since I believe strongly that nothing except possible adverse publicity would come out of such a presentation. H

\*\*\*\*\*

25X1A 10. Gordon Stewart advised me that he had read Larry Houston's legal opinion to [REDACTED] who had asked him to give him until Monday to think over the question as to whether or not he should resign.

25X1A 11. Gordon advised me that [REDACTED] had been in to see him. Apparently Mr. [REDACTED] is resigning in August and wanted to be assured that certain information which I have from the Inspector General alleging misconduct on his part would not be transmitted to future prospective employers. I told Gordon that I had no intention of putting this information in [REDACTED] personnel file and that he could reassure him along these lines.

25X1A 12. Larry Houston said that he had seen Jim Angleton who had indicated that he might be able to use [REDACTED] I want to follow up on this with Jim and Harry.
